EDUCATION

Galgotias University

Bachelor of Computer Applications with Ai and ML and Data Science

HS DAV Public School

STEM

Gautam Buddh Nagar Gr Noida

Aug 2023- Sep 2026

Narkatiaganj Bihar

June 2022-July 2023

EXPERIENCE

Software Developer Intern

Galgotias University Startup center

Feb 2025-Apr 2025

Gautam Buddh Nagar

- Developed a REST API using FastAPI and PostgreSQL to store data from learning management systems
- Developed a full-stack web application using Flask, React, PostgreSQL and Docker to analyze GitHub data
- Explored ways to visualize GitHub collaboration in a classroom setting

Ai and ML Integration in Software

Galgotias University Startup Center

June 2025-2025

Gautam Buddh Nagar

- At Galgotias University, I integrated agentic AI into web apps, enabling autonomous task execution.
- I implemented large language models for contextual chat, enhancing user interaction and intelligent content generation.
- I developed predictive dashboards with machine learning, improving personalization, insights, and recommendation systems in web apps.

Iit Bombay Ecell participation

Galgotias University Startup center

Aug 2025- Sep 2025

Gautam Buddh Nagar

- At IIT Bombay E-Cell, I guided peers in AIML development, integrating advanced models for innovation.
- I supported startups with web and app development, leveraging Docker for scalable deployments and reliability.
- I contributed to agentic AI and LLM integration, helping emerging ventures shine with intelligent automation.

PROJECTS

Jarvis Ai Assistant with Face Auth | Python inetrgated with ML

jan 2025

- I built a MERN and JavaScript-based web app, ensuring responsive design and smooth user interactions.
- I developed the backend using Python machine learning frameworks, delivering predictive intelligence and scalable architecture.
- I implemented secure face authentication, integrating AI models for identity verification and advanced user protection.

Full Stack Shopping App with Admin Pannel | Mern Stack with Admin Git, GitHub and Vercel

April 2025

- I developed a full-stack shopping website with MERN, integrating user-friendly design and smooth product interactions.
- I built an admin panel for managing users, inventory, and product listings with secure operations.
- I enabled features for users to add, update, and delete data, ensuring complete flexibility.

Job Portal with Admin Pannel | Mern Stack with Admin Git, GitHub and Vercel

June 2025

- I developed a full-stack job portal using MERN, enabling job seekers and hirers to connect.
- I integrated an admin panel to manage users, job postings, and data with secure control.
- I implemented CRUD operations, authentication, and profile management, ensuring smooth interactions between job seekers and recruiters.

Ai Workflow development with n8n and ML | n8n ,Machine Learning ,APIs, Webhooks ,Git, GitHub , Vercel

Aug 2025

- I developed AI-powered workflows using n8n, automating tasks and connecting multiple services seamlessly.
- I integrated machine learning models for predictions, enabling intelligent automation and real-time decision-making workflows.
- I deployed modular pipelines, combining n8n orchestration with ML, enhancing scalability and adaptive business processes.

Agentic Calling Agent | Gemini, LangChain ,Voice & VoIP,Agentic AI

Oct 2025

- I built an Agentic Calling Agent integrating LLMs to handle automated voice-based customer interactions.
- I developed intelligent workflows for scheduling, reminders, and queries, ensuring natural, human-like conversational experiences.
- I integrated APIs and telephony services, enabling seamless multi-step task execution with autonomous decision-making.

TECHNICAL SKILLS

Languages: Mern Stack, Flutter and React Native, Machine Learning, Data Analysis, n8n, Agentic Ai and Llm

Frameworks: React.js, Redux, Next.js, Node.js, Express.js, MongoDB, Flutter, React Native, Pandas, NumPy, TensorFlow, PyTorch, n8n, LangChain, OpenAI API, GSAP, Locomotive, Anime.js, LLMs, Agentic Calling Agent

Dev Tools: Dev Tools: Git, GitHub, Docker, Vercel, Jenkins, Nginx, Kubernetes, Grafana, Prometheus, VS Code, Postman, Android Studio, Google Cloud, AWS, Netlify

Libraries: Pandas, NumPy, TensorFlow, PyTorch, Matplotlib,n8n and Agentic Ai
